

IWCF Drilling Well Control (Level 3&4)

This course is conducted in English / Thai

Course Overview :

This programme is designed for people in critical well control positions on drilling installations as well as onshore roles. The candidates will complete an IWCF accredited training course, taught according to IWCF syllabus, in order to prepare them for assessment.

Who should attend :

Level 3 - Recommended for any role that is expected to shut-in a well. A Level 2 course should be successfully completed prior to taking a Level 3 course. Roles Include but not limited to Driller, Assistant Driller, Equivalent positions in well servicing and Equivalent positions in intervention operations.

Level 4 - Recommended in addition to content covered in Level 3 training, wellsite supervisory and office-based personnel that are primarily involved with the well design and operational decision making process. Also those involved with potential well kill methodology should be trained to this high level.

Registration Fee : 72,900 Baht / US \$ 2,280

This fee does not include 7% VAT, dinner and transportation but include 2 coffee breaks and a lunch during the session day, accommodation, instruction and instructional materials.

Class Size

Minimum 6
Maximum 15

Venue

TPTI Bangpu Training Center
919/9 Moo. 2 , Tambon Taiban,
Bangpoo Samut Prakarn Province
10280 Thailand

Course Schedule

- Jan 28-Feb 01, 2019
- February 18-22, 2019
- March 18-22, 2019
- April 22-26, 2019
- May 27-31, 2019
- June 24-28, 2019
- July 22-26, 2019
- August 19-23, 2019
- September 23-27, 2019
- October 21-25, 2019
- November 18-22, 2019
- December 16-20, 2019
- As requested

IWCF Drilling Well Control (L3&4)

Principles and Procedures

- Overview
- Introduction to well control
- Barrier concept.
- Risk management
- Causes of kicks
- Kick warning signs and indicators
- Circulating systems
- Fracture pressure and maximum surface pressure
- Influx characteristics and behavior
- Shut in procedures
- Well control methods
- Well Control during Casing and Cementing Operations
- Well Control Management
- Contingency Planning

Equipment

- Blow Out Preventers
- Associated well control equipment
- Choke manifold and chokes
- Auxiliary equipment
- Barriers
- Testing
- BOP control systems

This syllabus is divided into two sections;

- Section.1 Practical Assessment (Simulator)
- Section.2 Written Test

The written test syllabus is divided into 2 sections;

- > Principles and Procedures
- > Equipment

Test

Written Paper Test (by IWCF Invigilator)
